Subject: PUNISH MICROSOFT DON'T GIVE THEM MORE BUSINESS!

To whom it may concern,

Microsoft needs to be punished, and from what I have read so far is that has not happened yet! There should be a huge fine and I'm not talking millions I'm talking BILLIONS!!! Put them down for the count not just for the round. What you have agreed to do is give them a slap on the hand and tell Microsoft to go ahead and do it all over again and we promise not to bother you anymore. What kind of punishment is this? Why don't you throw some of the executive team in prison. I thought that's what you do with criminals isn't it?

Please be more aggressive with this case and don't let them get away with what they have done and continue to do. I find the settlement very unfair to Apple Computers Inc. To let Microsoft put their own products in schools and force all schools to change out their equipment will not help anyone except Microsoft spread more of their crap out into the world. Who profits from this? MICROSOFT!

Sincerely, John Horvatic
